

**Sheldon J. Fox**

Sheldon J. Fox is president of the National Programs business unit, reporting to the group president of Government Communications Systems. The National Programs business unit supports primarily space and intelligence community programs for the U.S. Government.

Prior to assuming his current position, Mr. Fox was president of the Defense Programs business unit. Prior to that, he held the position of vice president and general manager of the DoD Programs business unit. Previously, he was vice president of Programs for the DoD Communications Systems business area, providing information processing and communications solutions for military services and prime contractors.

Since joining Harris in 1984, Mr. Fox has held a number of senior leadership positions in both program management and business development, playing a key role in successfully achieving financial and business objectives during each assignment and positioning Harris on many nationally important platforms and programs.

Mr. Fox holds a B.S.E.E. and M.S.E.E. from Georgia Tech, and an M.B.A. from the University of North Carolina at Chapel Hill.

In addition, he is a graduate of the Harris WINGS management development program, the Defense Systems Management College at Fort Belvoir, the Mahler Advanced Management Program, and the Harris Leadership Directions program at the University of Virginia's Darden School of Business.

He is a member of the Aerospace Industries Association, the Air Force Association, the Armed Forces Communications and Electronics Association, the Association of the United States Army, the Navy League, the National Defense Industrial Association, and the United States Space Foundation.

Harris is an international communications and information technology company serving government and commercial markets in more than 150 countries. Harris is dedicated to developing best-in-class *assured communications*<sup>™</sup> products, systems, and services.
