

Richard P. Simonian

Richard P. Simonian is president of Maritime Communication Services (MCS), a wholly owned subsidiary of Harris Corporation. He reports to the group president, Government Communications Systems Division (GCSD). MCS specializes in managed satellite communication systems and services for the maritime community, remote land-based communication solutions, and deep-ocean buoy communication systems.

Prior to assuming his current position, Mr. Simonian served as vice president of Operations for MCS, overseeing the operations of MCS's worldwide network of communication systems on land and at sea.

Mr. Simonian was previously responsible for pursuit and program execution for the Department of Homeland Security and other civil agencies with emphasis on the U.S. Coast Guard. He also served as vice president of Engineering, overseeing 1,000 system, software, and support engineers. He led the achievement of SEI CMM Level 4 within the division. He has

extensive background in program management and engineering processes, research and development planning, and management of information technology advances.

He earned his B.S. in computer science from Ohio State University and an M.S. in computer science from the University of Florida.

Mr. Simonian is a member of AFCEA and the Association for Computing Machinery, is chairman of the University of Florida Dean's Advisory Board, and a Board member of Central Florida Junior Achievement. He has also served on advisory boards for the University of Central Florida and the Florida Institute of Technology.

Harris is an international communications and information technology company serving government and commercial markets in more than 150 countries. Harris is dedicated to developing best-in-class *assured communications*[®] products, systems, and services.
